

WELCOME TO WADDESDON MANOR

Have you tried any of the 50 things before you're 11³/₄?
Use this map of the grounds to help guide you to a great place to try out one of the activities.

4. BUILD A DEN

Have a go at building a den in the Woodland Playground. **Top tip for success:** Start by leaning sticks against a low tree branch like a wig-wam. How big was your den?

6. RUN AROUND IN THE RAIN

Make a splash on the North Front **Top tip for success:** Remember your rain coat. How many puddles did you jump in?

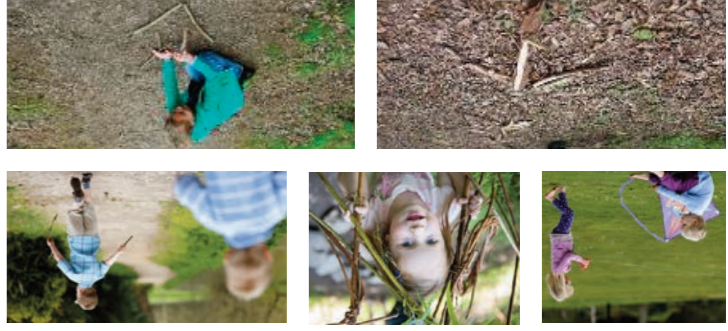

7. FLY A KITE

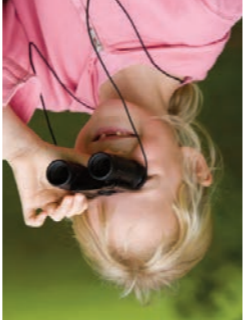

Enjoy a windy day by flying your kite on the North Front. **Top tip for success:** Make sure you are in a big open space. Look up and check nothing will get in the way before you begin to fly. How long did you keep your kite in the air for?

12. MAKE A TRAIL WITH STICKS

See if you can add to our stick trail so it can reach all the way around Miss Alice's Drive. **Top tip for success:** Try to choose a straight stick. What was the longest stick you saw?

33. CATCH A FALLING LEAF

Stand by a tree down in Aviary Glade and try to catch a leaf as it flutters down from the tree. **Top tip for success:** If it's a windy day, stand so the wind blows into you - it will help bring the leaves towards you. How many leaves did you manage to catch?

34. TRACK WILD ANIMALS

Head down Miss Alice's Drive Woodland Walk, and keep your eyes peeled for tracks on the ground. **Top tip for success:** Remember, animals don't wear shoes so their footprints don't all look the same. Which animals did the footprints belong to?

13. MAKE A MUD PIE

Make a messy mud pie with mud, sticks and leaves down Miss Alice's Drive. **Top tip for success:** Mud pies might look delicious but they don't taste great, so never eat a mud pie. Can you make a mud pie that looks like a face?
